

The Society of Odonatologist of Serbia and Association HabiProt
together with Slovene Dragonfly Society
invite you to the

6TH BALKAN ODONATOLOGICAL MEETING

that will take place in Serbia
from 5th to 12th August 2016

Dear Friends and Colleagues,

The Society of Odonatologist of Serbia and Association HabiProt together with Slovene Dragonfly Society organize the 6th Balkan Odonatological Meeting (BOOM 2016) that will take place in Serbia from 5th to 12th August 2016.

The Balkan Odonatological Meeting combines field studies, lectures and workshops on dragonflies and damselflies. During camp the participants will have the opportunity to investigate dragonfly fauna of the Southeastern part of the country. Field trip will lead us to many unexplored habitats between two main localities, Sokobanja on the north and Vlasina to the south of Južna Morava basin (Južno Pomoravlje).

We also invite the participants to present their findings and work on Odonata with their own lectures. Both amateur and professional odonatologists are invited, with students from the Balkan as the main public. Participants from other countries are very welcomed to join the meeting as well.

Registration fee will be 70 EUR for students and unemployed graduated biologists and 120 EUR for others (60 EUR and 110 EUR for the participants who will present their research on dragonflies). For those who plan to join us only partly, daily fee will be 20 EUR. In case we provide some additional funding, the registration fee may be lower.

For more information, feel free to contact us by e-mail: balkanodonatameeting@gmail.com or join the [BOOM group on Facebook](#).

Kind regards,
Organization committee of the BOOM 2016
